Amora Ragdollz

Owner Contract

THE BREEDER & PURCHASER AGREE TO THE FOLLOWING CONDITIONS:

Kitten is guaranteed to be in good health upon pickup, free of internal and external parasites and LEUK/FIV. The purchaser is advised to have the kitten examined by your own veterinarian within 72 hours to confirm its good health. If any health concerns are found, the purchaser may return the kitten to the seller within 72 hours with a written explanation from the attending veterinarian. No medical or travel expenses will be reimbursed, seller will replace the kitten or reimburse the purchaser for the amount paid for the kitten. We will not be responsible for any illness (non-genetic) found after 72 hours of pickup when kitten was purchased from seller.

If the kitten dies within the first year of life due to an inherited genetic disease the buyer must inform seller and provide a necropsy of the kitten from a certified veterinarian. Kitten has a 2-year genetic health guarantee against any hereditary or congenital defects, including FIP. The necropsy, from a certified veterinarian, must clearly state in writing the certain congenital or genetic defects of the specific kitten for the breeder to replace the kitten. It is not the breeder's responsibility to pay for the vet bills or the loss of the kitten from anything that is not congenital or hereditary. If the kitten dies from anything that is not hereditary or congenital defects such as wrong vaccination or sickness not present at time of first 72 hour checkup by your vet after pickup, the breeder assumes no responsibility. Meaning breeder will **NOT** refund any money for your vet bills. Seller would replace kitten if it is found to have a hereditary defect and after many tests procedures to prove the defect was hereditary or genetic after the necropsy.

You must have the kitten examined by your vet within 72 hours after pickup for the above to be valid. Breeder agrees that the kitten is from two DNA tested parents (Optimal Solutions Genetic Testing).

Purchaser agrees **NEVER** to allow the kitten to roam freely outdoors, kitten will be kept indoors. Purchaser agrees **NOT** to have the kitten declawed at any time during its life. This procedure is **VERY** painful and causes discomfort for the rest of the cat's life. Declawing causes severe physical pain and suffering by taking the first toe joint off. This extreme pain could possibly cause neurological damage such as aggressive behavior, biting, going outside of the litter box or on the furniture. If cat is found to be declawed the purchaser will surrender the cat back to the breeder.

Purchaser will be provided with the Litter Registration Certificate from TICA. **It is your responsibility to register your kitten with TICA with the certification provided by the Seller/Breeder.**

This sale is in the state of Texas and any or all legal issues will be as per Texas State law. Any court proceedings will be brought in the County of Henderson Texas. All legal fees and court costs used to enforce this contract will be paid by the purchaser, including the seller fees or costs. By signing this contract the purchaser agrees to these terms.
